### About Penn Hills Charter School of Entrepreneurship

The Penn Hills Charter School of Entrepreneurship provides a hands-on, engaging program designed to bring entrepreneurial and economic concepts alive for students. The lessons related to the core elementary and middle school curriculum of science, math, social studies, and English language arts incorporate economic and entrepreneurial concepts. Young entrepreneurs provide goods and services, elected officials establish laws, crime stoppers keep the peace, judges arbitrate disputes, and reporters track down stories. All citizens earn wages in the school's "inventive" form of currency, invest in product ideas, deposit and borrow money from "inventive" banks, and pay taxes, tuition and rent.

### Our Mission

Our mission is to provide a world-class education for the students in the Penn Hills community that will not only prepare students academically but to develop into informed and responsible world citizens, creative problem solvers, and effective communicators. We believe that children of all cultures and abilities can learn and be challenged to reach their highest potential. To achieve this, the school recognizes the importance of collaboration with the entire learning community of students, parents, community members and school staff. Our mission is to ensure that the students experience real life 21st century learning experiences in an innovative, community based public school setting, and created to build a foundation that will enable students to reach their highest potential.

### Our Vision

Our vision is for every student to reach his or her full potential and discover the pathways for lifelong success.

Our governing board is comprised of dedicated members of the Penn Hills community, the Greater Pittsburgh area and Penn Hills Charter School of Entrepreneurship family.
